- * Easy to use protection - install and forget

Upsonic Orion is a Stand By UPS with 5 Australian three pin socket outlets. Three of these are battery supported, uninterruptible power outlets whilst the remaining two are surge protected. This allows for critical equipment like computers, monitors and modems to be protected from power outages as well as power spikes and surges. Simultaneously, less critical peripherals including printers and scanners may be surge protected with the same unit by plugging directly into the two surge protected outlets. **\$169** Including GST
